**1860**

**CHRISTIAN RUEFLI-FLURY**

In 1860, Christian Ruefli-Flury was born in Courrendlin (Switzerland). In 1870, he commenced his horology apprenticeship with Urs Schild before joining the Eterna watch company. In 1883, he married Pauline Flury and worked for Jean Aegler. He then made several contributions to the city of Biel.

**1884**

**IT ALL BEGAN WITH  
A TRUE LOVE STORY**

Christian Ruefli-Flury, produced a pocket watch for the 25th birthday of his beloved wife Pauline. Impressed by this exquisite gift, she convinced her husband to set up his own watch making company in Biel, a city famous for its well-educated watch engineers. Christian Ruefli-Flury called his company "Edox" which means "measuring of time" in ancient Greek.

**1900**

**THE BIRTH OF A LOGO**

The hourglass was officially used as a timeless symbol of Edox and since then, it has been a proud part of the official Edox company logo.

**1955**

**A GROWING COMPANY**

At that time, Edox employed up to 500 watchmakers and the company moved into new, modern and larger production facilities. Edox was amongst Switzerland's leading watch companies.

## THE WATER CHAMPION

1961

1961

DELFIN THE ORIGINAL

The famous "Delfin" timepiece was launched, featuring a double caseback, special protective gaskets and a specially invented double O'ring system, setting new standards of shock protection and water resistance. Edox became known as "The Water Champion" of Swiss watchmaking.

**1965**  
**HYDRO-SUB**

The revolutionary Hydro-Sub collection was launched, featuring the famous double O'crown patented Edox gasket for increased water resistance.

**1970**  
**THE FIRST GENUINE  
WORLD TIME WATCH**

This year saw the introduction of the world's first truly global timepiece, the "Geoscope" watch. Covering all time zones, the watch provided timekeeping for almost 50 different cities around the world, as well as local time.

**1998**  
**WORLD RECORD STILL  
UNBROKEN**

Edox engineers and watchmakers developed the world's slimmest calendar watch, the "Les Bémonts Ultra Slim" collection. The movement had a thickness of only 1.4 mm, which is a technical record still held by Edox to this day.

**2010-2024**  
**THE TIMEKEEPER  
BMW M MOTORSPORT**

After being associated to many prestigious racing competition such as WRC, Rally Dakar, and to the Sauber F1 Team, Edox is now the Official Timing Partner of BMW M Motorsport.

This partnership is a strong testimony of Edox's presence amongst the most renowned and active Swiss watch brands.

1884 **EDOX**  
140<sup>TH</sup> ANNIVERSARY  
2024

### 140 YEARS OF EDOX

In 1884, a love-infused journey began as Christian Ruefli-Flury crafted a heartfelt pocket watch for his wife, marking the birth of Edox. Now, in its 140th year, this Swiss watch brand from Les Genevez stands tall as “The Water Champion,” crafting timeless divers’ watches. A family-owned company, Edox blends heritage with modernity, shaping time for years to come.

# OFFSHORE INSTRUMENTS

By becoming the Official Timekeeper of the Class-1 World Powerboat Championship in 2007 and creating the CO-1 collection, Edox raised the resistance to water and shocks of its watches to an even higher level.

## COLLECTION'S EVOLUTION

**2007**

Official Timing partner of Class 1 World Powerboat Championship Designed with a scratch-resistant ceramic bezel.

**2007**

Edox presented the second generation of the Class 1 collection in Dubai. For the first time, a punched propeller of a racing boat adorned the 4mm thick case back of the collection. Since that date, the propeller has been an actual symbol of this high-grade sports watch.

**2008**

CO-1 Chronometer Automatic With materials as in the construction of racing boats: ceramic, titanium, steel.

**2010**

The automatic helium valve replaced the manual version and was installed in every CO-1 watch.

**2013**

CO-1 Automatic Chronograph Skeleton - the Ghost Ship.

**2019**

CO-1 Carbon Chronograph Automatic  
New case design: carbon cover.  
Extremely water-resistant.

**2024**

CO-1 Chronograph Automatic Equipped with a bezel lock function, ensuring accurate timing for safer underwater experiences.

# HIGH PRESSURE RESISTANT

Water-resistant to an incredible 1'000m, the Edox Neptunian is built ultra-tough to handle not only the pressures of the deep but, thanks to its strong and durable stainless-steel case, anything on the surface as well. A 3mm-thick sapphire crystal protects the classic, clean dial encircled by a ceramic bezel. The case back features a striking engraving of Neptune, the Roman God of the Sea.

NEPTUNIAN

# THE WATER CHAMPION WATCH

The Delfin collection was first launched in 1961 and used revolutionary watch parts such as double O'ring gaskets for crowns and pushers and a special shock absorbing caseback in order to withstand an impressive water resistance of 200 meters.

Nowadays, this special equipment is still featured in Edox Delfin timepieces.

## COLLECTION'S EVOLUTION

# **HYD RO- SUB** DIVE

80128 3BUM BUJO

# THE SUBMARINE WATCH

The Hydro-Sub Special Edition is new, improved and with 21st century smarts – but still infused with the timelessly cool DNA of the original 1960s Hydro-Sub, the timepiece that helped make Edox the ‘water champion’ of the watch industry.

## COLLECTION'S EVOLUTION

**1965**

Original Hydro-Sub

Water-resistant down to 500m, an incredible achievement in the 1960s.

**2014**

Edox Hydro-Sub North Pole Limited Edition

A certified chronometer featuring an inhouse developed crown protection system named “Master-Lock”.

**2021**

Hydro-Sub Automatic Chronometer

Improved but still infused with the timelessly cool DNA of the original 1960s.

# RALLY INSTRUMENTS

The Chronorally is a revolutionary chronograph with new, sophisticated technical functions originally developed for rally drivers. It has been the official collection of FIA World Rally Championship (WRC), the Dakar Rally, the FIA World Rallycross championship and for the former Formula 1 team Sauber. It will now be worn by BMW drivers.

DRIVE CHRONORALLY

Inspired by the glorious heritage of 1970s motorsport and the original model from 1972, the new EDOX Sportsman Chronographe Automatic embodies the competitive essence and elegance of that legendary age while also celebrating EDOX's 140th anniversary.

Original EDOX Sportsman  
Chronographe Automatic from 1972

Transparent caseback with the anniversary logo  
engraved on the rotor.

## SPONSORING

OFFICIAL TIMING PARTNER OF  
BMW M MOTORSPORT

Edox is the exclusive “Official Timing Partner” of BMW M Motorsport. The partnership includes engagements in the BMW Junior Team, the BMW M2 Cup, as well as the GT3 highlight, the 24h race at the Nürburgring.

This sponsorship is a strong testimony of Edox’s presence amongst the most renowned and active Swiss watch brands.

MARIANNA GILLESPIE  
WATER CHAMPION AMBASSADOR

The Russian-born Frenchwoman, is the current French national and world record holder in multiple disciplines. Marianna has been world champion seven times, ranked No. 1 in the world multiple times and she is also the youngest winner of the prestigious Vertical Blue competition.

She is an ambassador for the iconic Edox Delfin diver’s watch collection and offered product-specific guidance to further refine the new Delfin lady collection.

CHRONORALLY

## EDOX QUALITY

### Batteries

In compliance with global regulations and standards, Edox equips its quartz timepieces with mercury-free batteries. This is a positive step towards environmental sustainability with no effect on the watch precision and efficiency.

### Edox double O'ring Crown or Pusher

Since the 70's, Edox has set specific quality and technical standards for ensuring the water resistance of diving timepieces. The double O'ring crown or pusher has been engineered by Edox to allow to increase the resistance to water pressure. Timepieces equipped with crowns or pushers featuring a double O'ring are featuring the special pictogram for easy understanding.

### Helium Escape Valve

Some of our CO-1 and Neptunian timepieces are equipped with a decompression system which allows helium to escape from inside the watch when worn for professional use in pressure chambers (long-term underwater work, crude oil exploration, etc).

The Edox helium valve opens and closes automatically. It is imperative that the models equipped with a non-automatic helium escape valve (such as older Edox timepieces) have the helium valve screwed back in order to guarantee their water resistance.

### Ceramic

Up to four times harder than stainless steel, ceramic is scratch-resistant and thus extremely durable. Mainly used to build the bezels of Edox watches, this material will also prevent the colours from fading.

### Carbon

Carbon first became widespread in industries like aerospace and Formula 1. Exceptionally strong yet surprisingly light, Edox uses this material to build solid case constructions while giving them a very unique and distinctive look.

### Chronometer

When Edox creates a chronometer watch, it means that the movement hosted has successfully undergone the precision test of the Official Swiss Chronometer Testing Institute (COSC), based in Switzerland.

These movements have a certified precision of  $-4/+6$  seconds per day, about three times better than a standard Swiss mechanical movement.

### Bronze

Bronze has natural properties that set it apart from other materials. Bronze does not rust and is therefore widely used in nautical applications and for some Edox diving watch cases, bronze will react with other elements producing a layer of oxidization on its surface. This patina then acts as a protective coating and makes every Edox bronze watch unique.

### DLC

Diamond-Like Carbon (DLC) is a coating in a layer of extremely durable and scratch-resistant carbon particles. It possesses the most desirable physical characteristics of diamond – hardness and durability – and with a sleek beauty. This treatment will improve the durability and the aesthetics of the Edox watch cases.

### Hand-assembled

Every single Edox watch is carefully hand-assembled by qualified Swiss watchmakers in our ateliers in Les Genevez. Each one of them is checked and controlled over a long period of time – by both human beings as well as special equipment to ensure optimal quality.

### Leather

All Edox leather straps are specially cut, stitched and padded by expert craftspeople. Various ways of tanning provide different touch and feel for the straps made of cow or calf leather. It is always important to remember that colors and suppleness of leather are subject to change with time and exposure to external factors. Daily showers or swims are not recommended. If your consumers live a very active lifestyle, especially one involving frequent exposure to salt water and heavy perspiration, we recommend a steel bracelet or rubber strap.

### Luminescence

This technology, branded under the name Super-Luminova, offers brightness in low-light conditions, thanks to a non-radioactive and non-toxic material like the tritium previously employed in the industry. Edox uses Super-Luminova X1 for its highly functional attributes. It is applied on watch parts such as hands, numerals, bezel indices, etc.

### Mother-of-pearl

Resilient, and iridescent, mother-of-pearl is integrated in many Edox dial designs. It is produced inside the shells of certain mollusk shells. This is why each dial made of mother-of-pearl is unique.

### Movements

#### Mechanical movement:

A mechanical movement undergoes several stresses in its life. To ensure it will remain functional and precise as long as possible, Edox simulates watch wearing in its own quality office for every single manual and self-winding mechanism.

### PVD

Edox uses PVD coatings which is a high-performance pollution-free and non-allergenic technology also used in the aeronautic industry, is widely used in watchmaking. The process involves putting a fine titanium coating on stainless steel by condensing a metal vapor in a partial vacuum.

### Rubber

Edox uses genuine high-grade rubber for its straps (a natural material and extremely comfortable). The rubber is silky finished and easy to maintain with the proper cleaning.

### Sapphire crystals

100% of Edox timepieces are fitted with a scratch-resistant crystal that has been cut from a polished slice of solid sapphire. Each has a triple-coated anti-reflective treatment on the internal side for better legibility.

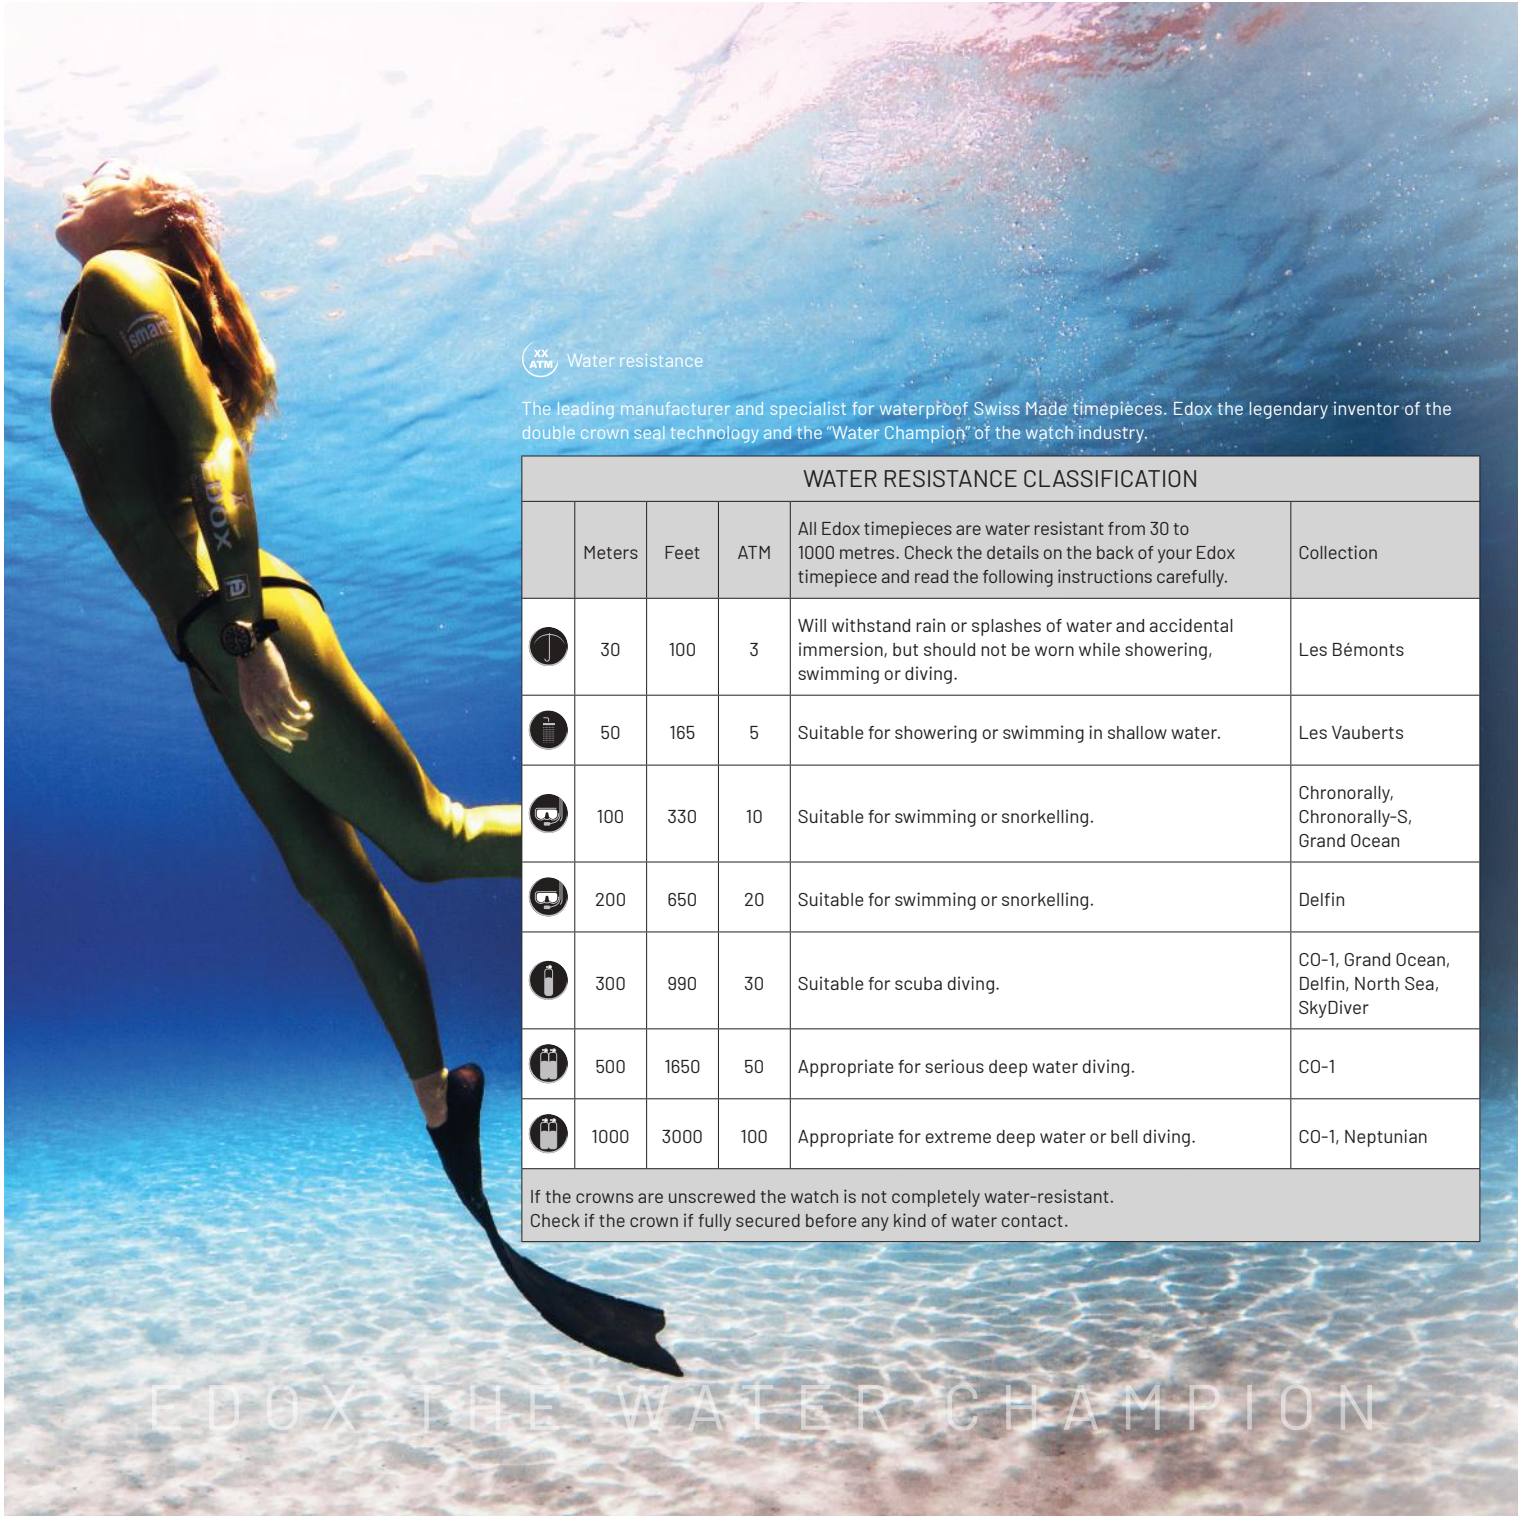

### Stainless Steel

The 316L stainless steel alloy used in Edox cases and bracelets has strong anti-magnetic properties and is optimized for toughness and corrosion resistance. It is also a good choice for consumers allergic to nickels.

### Titanium

Edox integrates this metal to some of its sports timepieces, as it is as strong as steel but 45% lighter and highly resistant to corrosion. The high tensile strength to density ratio makes it the ideal material for active lifestyles.

**XX ATM** Water resistance

The leading manufacturer and specialist for waterproof Swiss Made timepieces. Edox the legendary inventor of the double crown seal technology and the "Water Champion" of the watch industry.

WATER RESISTANCE CLASSIFICATION					
	Meters	Feet	ATM	All Edox timepieces are water resistant from 30 to 1000 metres. Check the details on the back of your Edox timepiece and read the following instructions carefully.	Collection
	30	100	3	Will withstand rain or splashes of water and accidental immersion, but should not be worn while showering, swimming or diving.	Les Bémonts
	50	165	5	Suitable for showering or swimming in shallow water.	Les Vauberts
	100	330	10	Suitable for swimming or snorkelling.	Chronorally, Chronorally-S, Grand Ocean
	200	650	20	Suitable for swimming or snorkelling.	Delfin
	300	990	30	Suitable for scuba diving.	CO-1, Grand Ocean, Delfin, North Sea, SkyDiver
	500	1650	50	Appropriate for serious deep water diving.	CO-1
	1000	3000	100	Appropriate for extreme deep water or bell diving.	CO-1, Neptunian
If the crowns are unscrewed the watch is not completely water-resistant. Check if the crown is fully secured before any kind of water contact.					

EDOX THE WATER CHAMPION

## REFERENCE NUMBER SYSTEM

The following information will help you on how to handle the Edox reference number, which will give you helpful product information regarding movements, dials and cases.

CO-1  
01125 | CLNGN | BUNN | Ø 45 MM

01125 CLNGN BUNN

### MOVEMENT

The first 2 or 3 digits of these five figures represent the Edox movement code. Please refer to the page 112-116 of this catalogue.

01125 CLNGN BUNN

### CASE MATERIAL

The digits and/or letters represent the material and surface treatment (colour) of the case. (See the table)

01125 CLNGN BUNN

### DIAL VARIATIONS

The digits and letters represent the colour and design of the dial.
